Update

Click on the **update** button to save the draft invoice. The invoice screen will close and the lead will move to Invoicing – Active.

7.2. Invoicing - Active:

7.2.1. Updating the job card:

After the customer’s invoice has been generated, the lead will move to **invoicing – active**. This is to ensure that all needed information has been added. If there is still any

information relating to the job that needs to be added to the job card, the job card can still be **updated**. If no additional information needs to be added, push the invoice to sage one to send it to the customer.

7.3. Sending the invoice to the customer:

To send the invoice to the customer, you first need to generate the sage one invoice. To do this, go to the **"Billing"** tab and then click on the **"Invoices"** option.

On this screen, you can see a list of all documents that need to be pushed through to Sage One. Type the name of the customer to whom you want to send the invoice to in the “**search**” box. If you need to update the invoice, click on the blue button (left of the green section). If the invoice is ready to be sent to the customer, click on the **orange** button in the **green** section to generate the sage.

Customer	Reference	Document Date	Due Date	Document No	Pay Method	Paid	Document Amount
State of Florida	JOB000008	2017-05-31	2017-06-05	INV0000007	EFT	Unpaid	
State of Florida	JOB000006	2017-05-30	2017-06-04	JOB000006	EFT		
State of Florida	JOB000007	2017-05-30	2017-06-04	JOB000007	EFT
