

Highsite and asset register locations are managed under the asset register setup.

Adding or editing locations to be used in the asset register and for highsites.

1. Go to Workflow -> Asset Register -> Setup -> Locations

Locations

All Customers | Normal | **+ Add Location** | Refresh

Show 15 Rows | Search: | Copy Columns Clipboard | Export Columns CSV | Export Columns Excel | Show / Hide Columns

Customer	Location Name	Location Comments	Location Address	Num Assets	Num Wireless	Num Radius	Num Devices	
Internal Use	Internal		1000 Main St		0	2	2	 
Internal Use	Internal		1000 Main St		26		1	 
Internal Use	Internal		1000 Main St		0	1	1	 
Internal Use	Internal		1000 Main St		1	0	2	 

2. Add or edit locations.

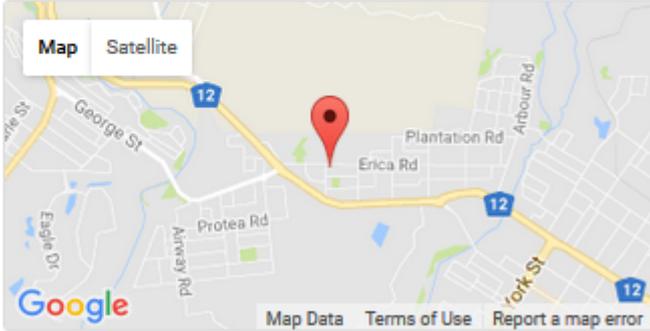

Edit Location #17
