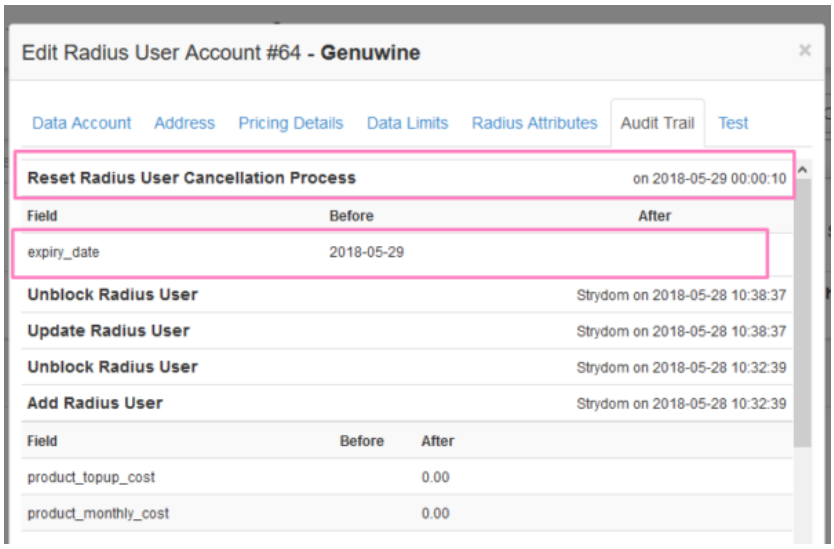
The Audit Trail for Radius User Accounts has been updated to include logs when a radius cancellation is reset, unblocked, cancellation date cleared and when the Auth Type has been rejected.



On the **Radius List of Users** the Show/Hide Columns have also been updated to include columns for when a Radius account has been blocked and Auth Type is rejected.

On the **Accounts Workflow menu** the Show/Hide Columns have been updated to include columns for when a Radius account has been blocked and Auth Type is rejected.
