

# Radius name change to Data (Big changes as a result of FUP).

The Radius menu option within HeroTill has been given a makeover, with the recent addition of the FUP module.

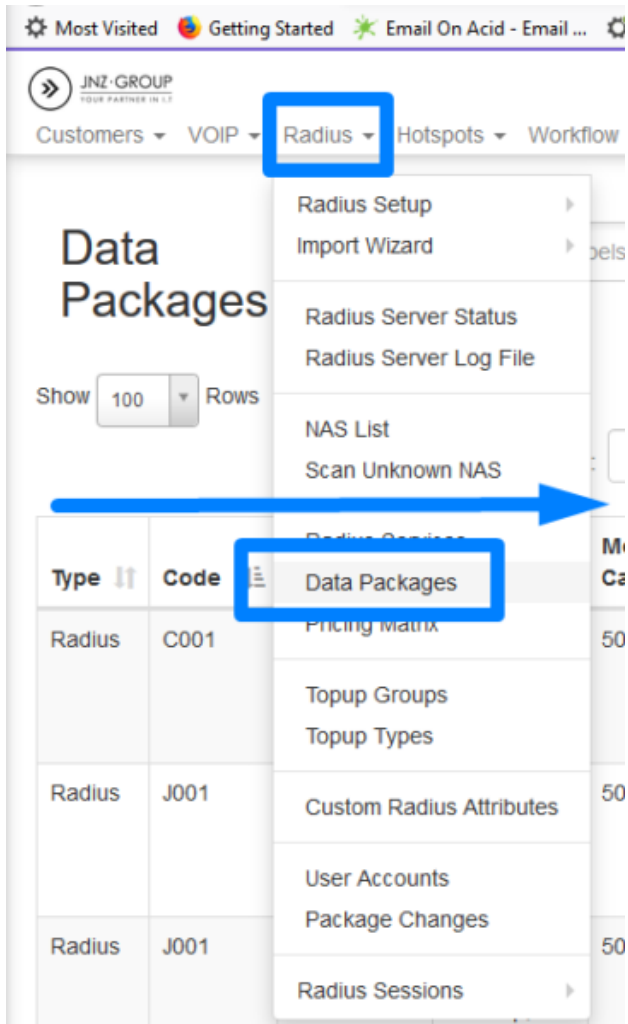

Radius is now referred to as *Data* on the home page. The subsequent dropdown items to the *Data* menu have also been changed. Refer to the summary below for a list of menu item changes.

- A new *Fair Usage Policies* menu item has been added to the *Data* dropdown list. This includes the sub menus *Speed Limit Policies* and *Speed Boost Policies*.

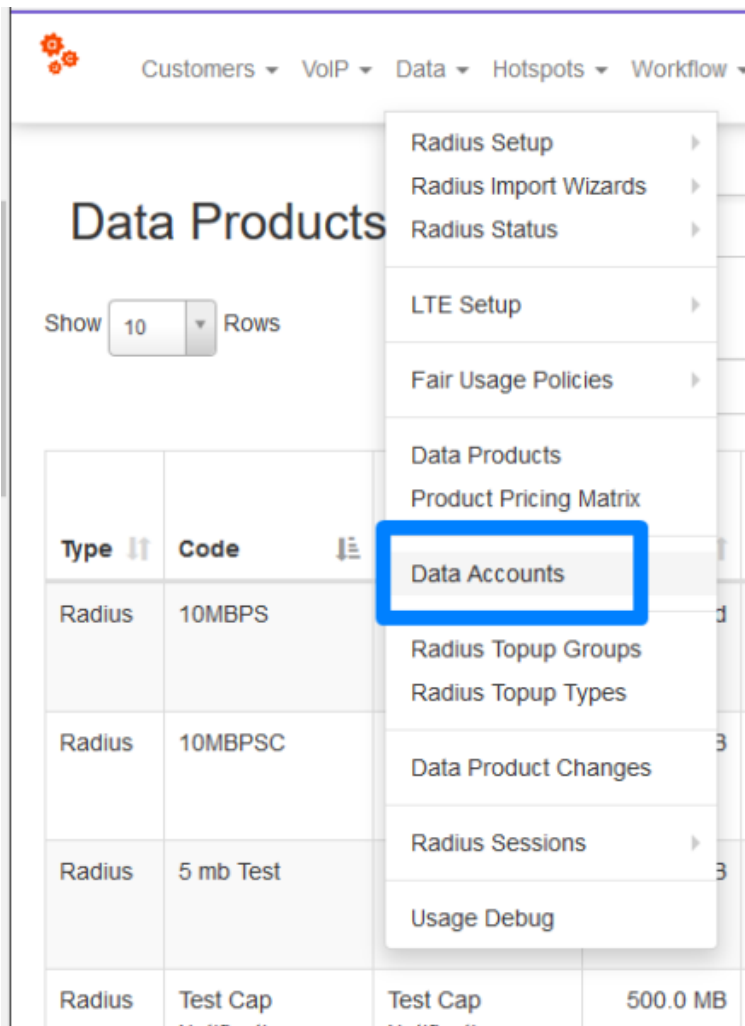

- The Data Packages menu option now appears as *Data Products*. Any previous instance

where Data Package was referenced - is now renamed/referred to as *Data Products*.

The screenshot shows the Herotel web interface. At the top, there is a navigation bar with 'Customers', 'VOIP', 'Radius', 'Hotspots', and 'Workflow'. The 'Radius' menu is open, showing options like 'Radius Setup', 'Import Wizard', 'Radius Server Status', 'Radius Server Log File', 'NAS List', and 'Scan Unknown NAS'. A blue box highlights the 'Radius' menu item, and a blue arrow points from it to the 'Data Packages' row in the table below. The table has columns for 'Type', 'Code', and 'M Ca'. The 'Data Packages' row is highlighted with a blue box.

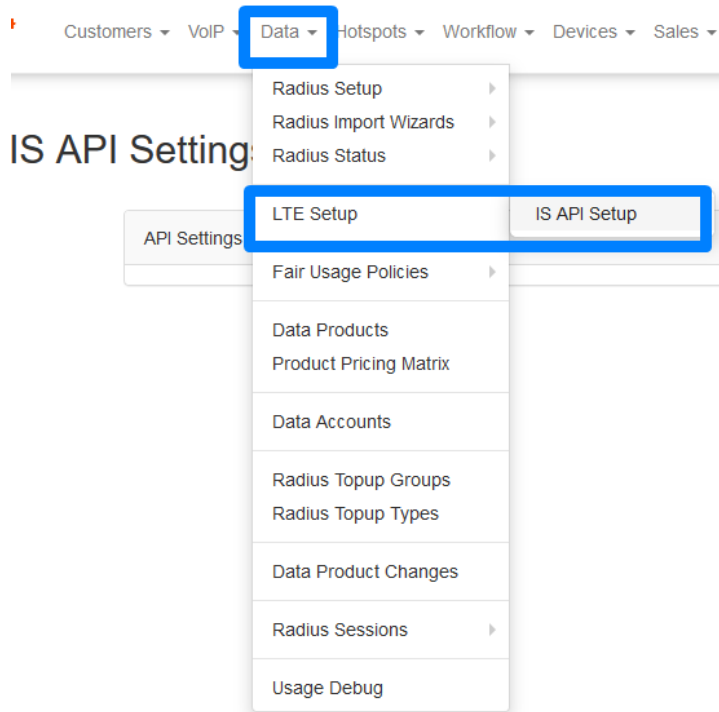

Type	Code	M Ca
Radius	C001	50
Radius	J001	50
Radius	J001	50

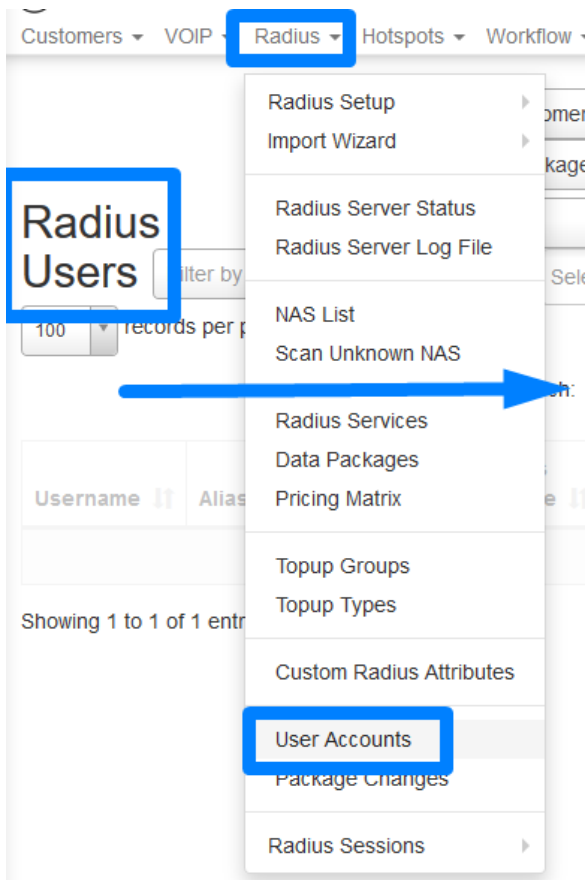

The screenshot shows the Herotel interface with the 'Data' menu open. The 'Data Accounts' option is highlighted with a blue box. The background shows a table of Data Products with columns for Type and Code.

Type	Code
Radius	10MBPS
Radius	10MBPSC
Radius	5 mb Test
Radius	Test Cap

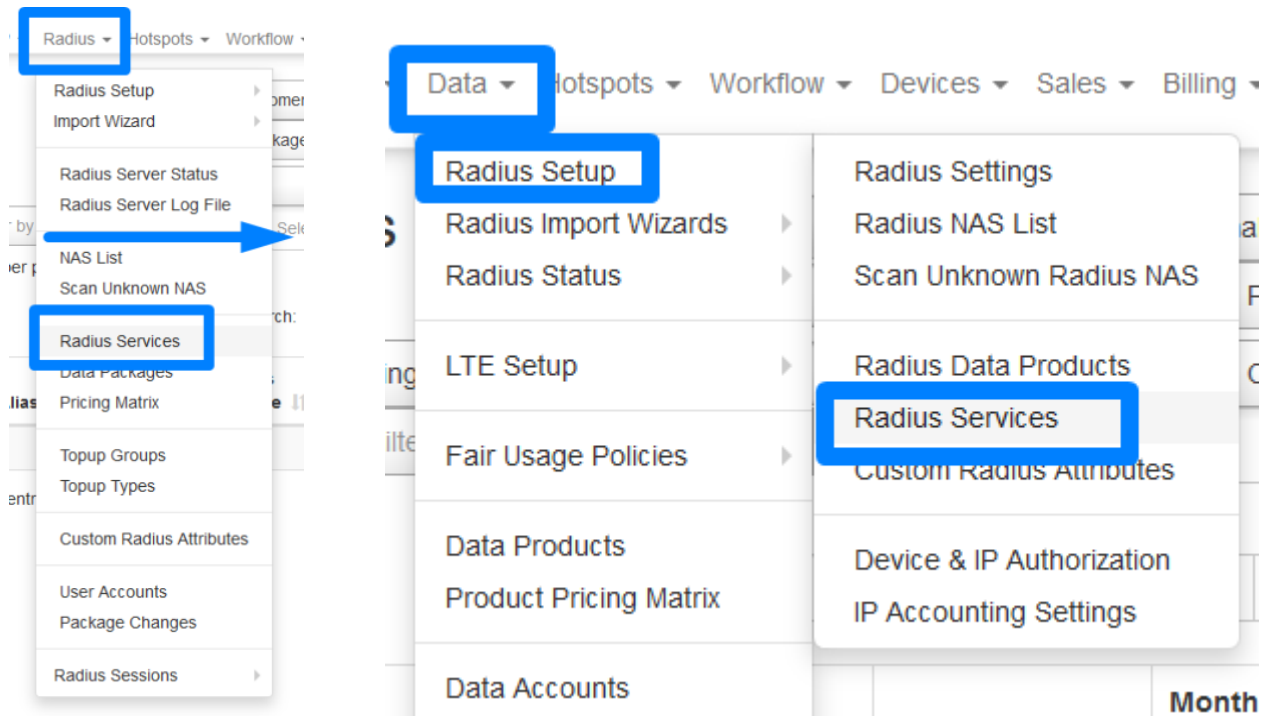

- All Data Products are now listed under the *Data* menu, including LTE. In the screenshots below the user can now see LTE has it's own setup.

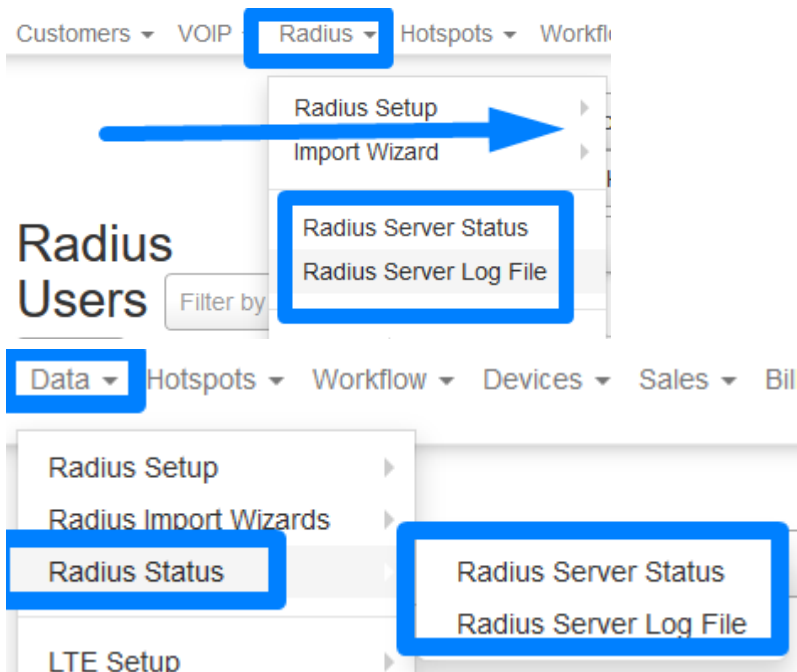

- The (Radius) User Accounts menu item has now been renamed to *Data Accounts*. Any previous instance where User Accounts was referenced- is now renamed/referred to as *Data Accounts*.

- The Radius Services menu item has been moved the Radius Setup sub menu (under the *Data* tab).
- The NAS List menu item has also been moved to this location and has been renamed to *Radius NAS List*.
- The Custom Radius Attributes menu item has also been moved to this location.
- The Scan Unknown Radius NAS menu item has also been moved to this location.
- The Radius Data Products menu item can also be found here (listed as Data Products on the main menu dropdown list).

- A new menu dropdown has been added to the *Data* menu. This is the *Radius Status* menu item - the sub menus are Radius Server Status and Radius Server Log File. These 2 items previously displayed under the main menu dropdown list.

- The Pricing Matrix menu item has been renamed to *Product Pricing Matrix*.
- Topup Groups and Topup Types have been renamed to *Radius Topup Groups* and *Radius Topup Types*.
- Package Changes have been renamed to *Data Product Changes*.
