A help menu with URLs to the guides/user manuals has been added to HeroTill.
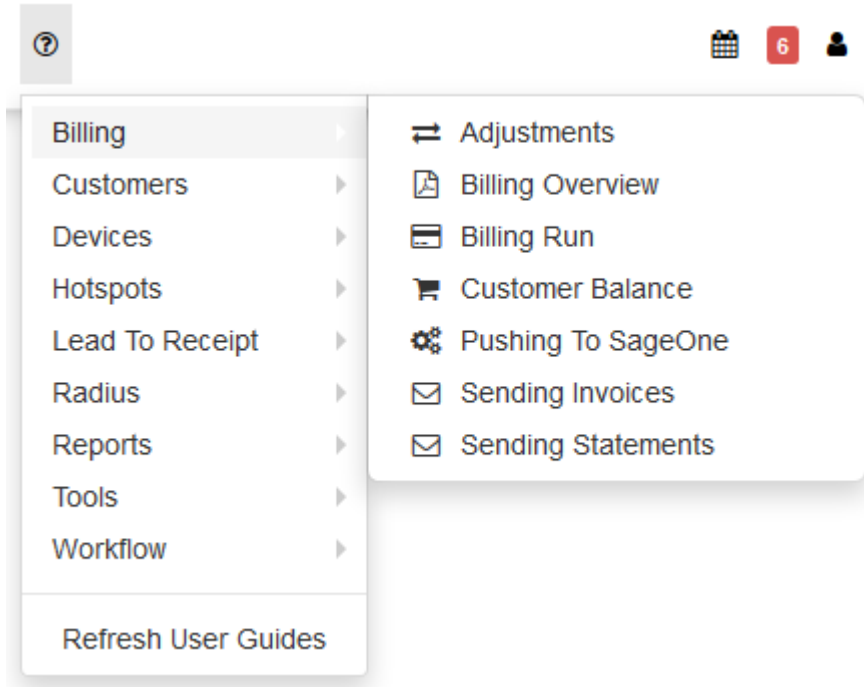

Look for the new "help" icon in the main menu. This is the help menu and will take you to online guides on the HeroTill.com website.

A Full refresh can also be done from the help menu. (If the user has system write permissions.)

Current sections: Billing, Customers, Devices, Hotspots, Lead To Receipt, Radius, Reports, Tools and Workflow.

Clicking on one of the menu items under its section will take you to the relevant guide.

Most of these guides can also be viewed at: datatill.com/guides/
