

How to Geolocate the customer address in the list customers screen:

1. Go to Customers -> List Customers.
2. Click on "Show/Hide Columns" and unhide the "GPS Position" column.

Customers

Select one or more Categories: All Customer Groups All Billing Groups

Message Add Customer Refresh

All Payment Types All Days All Types All Customers All Status Active Enabled All All Normal

Show 15 Rows Search:

Copy Columns Clipboard Export Columns CSV Export Columns Excel Show / Hide Columns

Customer Group	Billing Group	Account Code	Type	Name	Data Accounts	Phone	Email	Status	Categories	Balance	
Training	Metcash Run 1	KRI001	Individual	John Smith							
Training	Metcash Run 1	JES001	Company	John Smith					Ad-hoc		
Auto Rollover	Metcash Run 1	TES011	Individual	John Smith							
New Group for Import	Metcash Run 1	DEM001	Individual	John Smith							
New Group for Import	Metcash Run 1	JES004	Individual	John Smith							

3. Now all the GPS positions will show according to the physical address in the customer's profile details.

Customer Group	Billing Group	Account Code	Data Accounts	GPS Position	
Full Access	Metcash Run 1	100001	100001/100001, 100001	41.238888, -72.9806203	
Proprietorship 1	Metcash Run 1	100002	100002/100002	35.5332005, -79.179632	
Proprietorship 1	Metcash Run 1	100003	100003/100003	33.2531983, -82.7445254	
Full Access	Metcash Run 1	100004	100004/100004	-34.0633387, 20.6412421	
Full Access	Metcash Run 1	100005	100005/100005, 100005/100005, 100005/100005, 100005/100005, 100005/100005, 100005/100005	-33.9953246, 22.573095999999978	
Training	Metcash Run 1	100006	100006/100006, 100006/100006, 100006/100006, 100006/100006, 100006/100006, 100006/100006	-33.9951324, 22.5741667	

4. Clicking on the green "Geolocate Customer Address" button next to the blue "Edit Customer" button, will refresh the GPS Position of the physical address listed on the customer's profile.

Customer Group	Billing Group	Account Code	Data Accounts	GPS Position	
Call Answer	Melcosh Run 1	Deonf	deonfost1234, testpro	41.239888,-72.9806203	   

5. Clicking on the GPS coordinates in the GPS Position field, will show you the location on Google maps itself.

Note:

The GPS Position field is pulled from the GPS position from the physical address saved on the customer's profile in the customers list view, as shown below:
